[hassan3130@outlook.com](mailto:hassan3130@outlook.com), [alhazzan10@yahoo.com](mailto:alhazzan10@yahoo.com)

**Date of birth:** 07 March 1996

**Languages:** Nupe (native), English (fluent), Yoruba (fluent), Hausa (fluent), Arabic (Intermediate)

**Place of Origin:** Patigi LGA, Kwara state.

---

## **CAREER OBJECTIVE:**

To obtain a position in an organization where I can best utilize my strong creative and critical-thinking skills - so as to attain the organizational objectives and managerial targets and goals.

---

## **SUMMARY:**

A highly resourceful, flexible and innovative programmer with 3 years' experience and with an excellent team player ability to work proactively in a complex and busy office environment to enhance organizational growth, profitability and also build a solid career.

---

## **SKILLS:**

- Excellent computational and analytical skills: proficient in the use of Microsoft Windows, Microsoft office packages (MS Word ,MS Access, MS Excel, MS Power Point) , PHPmyadmin and a variety of generic software.
  - Proficient and experienced software and website developer in a variety of languages such as C#.NET, ASP.NET, ASP.NET WEB-API, ASP.NET Core, Blazor Web Assembly, Blazor Server, Entity Framework core Entity Framework, LINQ (Language Integrated Query), JavaScript, Git, Github, Mobile Blazor Bindings( Xamarin ) Bootstrap, SQL (T-SQL, MySQL, MSS).
  - Ability to work under pressure with little or no supervision, meeting demand deadlines and managing conflicting demands.
  - Excellence in areas including work volume, accuracy and quality; ability to learn and master new concepts; multi task; positive work ethic; and commitment to providing unsurpassed service.
  - XML reporting, CSV reporting and XLS reporting.
  - Task Automation using C# Console and windows task scheduler. I am also learning PowerShell for cross platform
  - Unit Testing with XUnit and Repository Pattern in ASP.NET CORE
  - Building and consuming REST APIS
  - OOP
  - ORM(Dapper, DapperContrib, RepoDB, EfcCore)
  - SDLC
-

## PROJECTS:

### YESSO MIS PORTAL([YESSO MIS Portal](#))

I participated in a team of developers in the design of pages (ASP.NET Webform) for capturing events, enrollments and registering users etc.

### Online Screening System (In Progress ([DevCisse/MySchoolProject: Online Screening System \(github.com\)](#))):

This application was originally written in PHP. This was my University Project. I am currently porting it to ASP.NET CORE using MCV. It allows applicants to save their bio data, upload supporting documents and receive SMS or email from screener. A screener from each department screens students and an overall screener later generates registration number of students dynamically based on the student's department and year of entry (The ABU Zaria System).

### AML Reporting Software (In Progress):

A software used by many financial banks in Nigeria to render reports in a strict XML format to regulators and authorities. I am porting this application to .NET CORE for better performance and to make it cross platform.

---

## EXPERIENCE:

Software Developer

- **SoftTech ISSL Limited, Abuja**

**Mar 2018 – till date**

- Programmer and Solutions Architect
